Remarks/Arguments:

The applicant would like to thank the examiner for the telephone interview on January

18, 2008, in which the prior art was discussed in reference to the independent claims.

The above Amendments and these Remarks are in reply to the Office Action mailed

September 17, 2007.

Claims 1-51 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stone et al.,

(U.S. Patent No.: 6,804,686).

The independent claims, as amended, include the feature that "the web page is the target

of a first action method; and wherein the web page raises a second action method; and wherein

the second action method implements code that results in website navigation".

For this reason, these claims are believed to be allowable.

In light of the above, it is respectfully submitted that all of the claims now pending in the

subject patent application should be allowable, and a Notice of Allowance is requested. The

Examiner is respectfully requested to telephone the undersigned if he can assist in any way in

expediting issuance of a patent.

The Commissioner is authorized to charge any underpayment or credit any overpayment

to Deposit Account No. 06-1325 for any matter in connection with this response, including any

fee for extension of time, which may be required.

Respectfully submitted
